530 Aldo Avenue
Santa Clara, California 95054
(Santa Clara County)

ID No: CAL 000 280 137

Respondent

Docket No. HWCA 20040551

ENFORCEMENT ORDER

Health and Safety
Code Section 25187

INTRODUCTION

1.1. Parties. The State Department of Toxic Substances Control (Department) issues this Enforcement Order (Order) to HSR General Engineering Contractors Inc. Doing Business As HSR, Inc. (Respondent).

1.2. Site. Respondent received authorization to operate one (1) Transportable Treatment Unit (TTU), Unit P0927026, to treat hazardous waste within California in 2002 and 2003. These 2002 and 2003 notifications for TTU P0927026 listed its physical address as 3150 Almaden Expressway, Suite 250, San Jose, California 95118-1250. The Department's data base system identifies the Almaden Expressway location as having an EPA ID Number of CAL 000 260 595. The Respondent has recently moved to a new location at 530 Aldo Avenue, Santa Clara, California 95054, with a new EPA ID Number of CAL 000 280 137. Both addresses are in Santa Clara County.

1.3. Permit/Interim Status. The Department originally authorized the operation of TTU (P0927026) under Permit By Rule (PBR) to the Respondent on October 17, 2002. The Respondent's TTU treated hazardous waste on-site at its customers' facilities. Lead contaminated soil was the typical wastestream that the TTU treated.

1.4. Jurisdiction. Section 25187 of the Health and Safety Code authorizes the Department to order action necessary to correct violations and assess a penalty when the Department determines that any person has violated specified provisions of the Health and Safety Code or any permit, rule, regulation, standard, or requirement issued or adopted pursuant thereto.

1.5. Exhibits. All exhibits attached to this Order are incorporated herein by this reference.

1.6. Applicable Statutes and Regulations. Copies of the statutes and regulations applicable to this Order are attached as Exhibit (A).

DETERMINATION OF VIOLATIONS

2. The Department has determined that:

2.1. The Respondent violated the California Code of Regulations, title 22, section 67450.3(a)(13), in that on or about April 27, 2004, Respondent failed to submit a certification – signed by both the owner or operator and by an independent, professional engineer registered in California – that closure of one TTU (P0927026) had been completed in accordance with the closure plan, and that the closure plan met or exceeded the applicable requirements of the California Code of Regulations, title 22, chapter 45.

2.2. The Respondent has sold the unit. Because the unit is no longer available for inspection, the Respondent cannot certify the TTU for proper closure and

compliance. For these reasons, the TTU remains “not properly closed” under California law.

SCHEDULE FOR COMPLIANCE

3. Based on the foregoing Determination of Violations, it has been determined that the Respondent cannot meet the regulatory requirements for closure of the TTU (P0927026). Therefore, no schedule for compliance will enable Respondent to achieve compliance for the violation listed in section 2.1.

3.1. Submittals. All submittals from Respondent pursuant to this Order shall be sent to:

Charles A. McLaughlin, Chief
State Oversight and Enforcement Branch
Statewide Compliance Division
Department of Toxic Substances Control
8800 Cal Center Drive
Sacramento, California 95826-3200

3.2. Communications. All approvals and decisions of the Department made regarding submittals and notifications will be communicated to Respondent in writing by the Branch Chief, Department of Toxic Substances Control, or his/her designee. No informal advice, guidance, suggestions, or comments by the Department regarding reports, plans, specifications, schedules, or any other writings by Respondent shall be construed to relieve Respondent of the obligation to obtain such formal approvals as may be required.

3.3. Department Review and Approval. If the Department determines that any report, plan, schedule, or other document submitted for approval pursuant to this Order fails to comply with the Order or fails to protect public health or safety or the environment, the Department may:

a. Modify the document as deemed necessary and approve the document as modified, or

b. Return the document to Respondent with recommended changes and a date by which Respondent must submit to the Department a revised document incorporating the recommended changes.

3.4. Compliance with Applicable Laws: Respondent shall carry out this Order in compliance with all local, State, and federal requirements, including but not limited to requirements to obtain permits and to assure worker safety.

3.5. Endangerment during Implementation: In the event that the Department determines that any circumstance or activity (whether or not pursued in compliance with this Order) is creating an imminent or substantial endangerment to the health or welfare of people on the site or in the surrounding area or to the environment, the Department may order Respondent to stop further implementation of this Order for such period of time as needed to abate the endangerment. Any deadline in this Order directly affected by a Stop Work Order under this section shall be extended for the term of the Stop Work Order.

3.6. Liability: Nothing in this Order shall constitute or be construed as a satisfaction or release from liability for any conditions or claims arising as a result of past, current, or future operations of Respondent. Notwithstanding compliance with the terms of this Order, Respondent may be required to take further actions as are necessary to protect public health or welfare or the environment.

3.7. Site Access: Access to the site shall be provided at all reasonable times to employees, contractors, and consultants of the Department, and any agency having jurisdiction. Nothing in this Order is intended to limit in any way the right of entry or inspection that any agency may otherwise have by operation of any law. The Department and its authorized representatives shall have the authority to enter and move freely about all property at the Site at all reasonable times for purposes including but not limited to: inspecting records, operating logs, and contracts relating to the Site; reviewing the progress of Respondent in carrying out the terms of this Order; and

conducting such tests as the Department may deem necessary. Respondent shall permit such persons to inspect and copy all records, documents, and other writings, including all sampling and monitoring data, in any way pertaining to work undertaken pursuant to this Order.

3.8. Data and Document Availability. Respondent shall permit the Department and its authorized representatives to inspect and copy all sampling, testing, monitoring, and other data generated by Respondent or on Respondent's behalf in any way pertaining to work undertaken pursuant to this Order. Respondent shall allow the Department and its authorized representatives to take duplicates of any samples collected by Respondent pursuant to this Order. Respondent shall maintain a central depository of the data, reports, and other documents prepared pursuant to this Order. All such data, reports, and other documents shall be preserved by Respondent for a minimum of six years after the conclusion of all activities under this Order. If the Department requests that some or all of these documents be preserved for a longer period of time, Respondent shall either comply with that request, deliver the documents to the Department, or permit the Department to copy the documents prior to destruction. Respondent shall notify the Department in writing at least six months prior to destroying any documents prepared pursuant to this Order.

3.9. Government Liabilities: The State of California shall not be liable for injuries or damages to persons or property resulting from acts or omissions by Respondent or related parties in carrying out activities pursuant to this Order, nor shall the State of California be held as a party to any contract entered into by Respondent or its agents in carrying out activities pursuant to the Order.

3.10. Incorporation of Plans and Reports. All plans, schedules, and reports that require Department approval and are submitted by Respondent pursuant to this Order are incorporated in this Order upon approval by the Department.

3.11. Extension Request: If Respondent is unable to perform any activity or submit any document within the time required under this Order, the Respondent may, prior to expiration of the time, request an extension of time in writing. The extension request shall include a justification for the delay.

3.12. Extension Approvals: If the Department determines that good cause exists for an extension, it will grant the request and specify in writing a new compliance schedule.

OTHER PROVISIONS

4.1. Additional Enforcement Actions: By issuance of this Order, the Department does not waive the right to take further enforcement actions.

4.2. Penalties for Noncompliance: Failure to comply with the terms of this Order may also subject Respondent to costs, penalties, and/or punitive damages for any costs incurred by the Department or other government agencies as a result of such failure, as provided by Health and Safety Code section 25188 and other applicable provisions of law.

4.3. Parties Bound: This Order shall apply to and be binding upon Respondent, and its officers, directors, agents, employees, contractors, consultants, receivers, trustees, successors, and assignees, including but not limited to individuals, partners, and subsidiary and parent corporations.

4.4. Time Periods. "Days" for purposes of this Order means calendar days.

PENALTY

5. Based on the foregoing DETERMINATION OF VIOLATIONS, the Department sets the amount of Respondent's penalty at \$13,500. Payment is due within 30 days from the effective date of the Order. Respondent's check shall be made payable to the Department of Toxic Substances Control, and shall identify the

Respondent and Docket Number, as shown in the heading of this case. Respondent shall deliver the penalty payment to:

Department of Toxic Substances Control
Accounting Office
1001 I Street, 21st floor
P. O. Box 806
Sacramento, California 95812-0806

A photocopy of the check shall be sent to:

Charles A. McLaughlin, Chief
State Oversight and Enforcement Branch
Statewide Compliance Division
Department of Toxic Substances Control
8800 Cal Center Drive
Sacramento, California 95826-3200

RIGHT TO A HEARING

6. Respondent may request a hearing to challenge the Order. Appeal procedures are described in the attached Statement to Respondent.

EFFECTIVE DATE

7. This Order is final and effective twenty days from the date of mailing, which is the date of the cover letter transmitting the Order to Respondent, unless Respondent requests a hearing within the twenty-day period.

Date of Issuance December 7, 2004
